<b>Profile</b>	
<b>Name</b>	Satbayev University
<b>Year of Foundation</b>	1934
<b>Organisation Logo</b>	
<b>Address</b>	22a Satpaev str., Almaty, 050013
<b>Telephone</b>	+7 727 292 68 65
<b>Country</b>	Kazakhstan
<b>Currency</b>	KZT
<b>Website</b>	<a href="https://satbayev.university/en">https://satbayev.university/en</a>
<b>Description</b>	<p>Satbayev University is a national technical university in Kazakhstan and famous due to its developments and investigations in the field of "green" technologies, artificial intelligence, industrial automation, mining, and the oil industry. Currently, it is an interdisciplinary university where, along with technical specialties, design, architecture, and management classes are taught. Satbayev University has partnerships relations with foreign universities in more than 20 countries. One of the key areas of the university's work is the education and creation of unique specialists for scientific and industrial spheres. Since 2017, the university has been the forge of personnel for the leader of the global nuclear industry - Kazatomprom Company. The university is actively developing educational innovations, like allowing young people from all over the world to have distance education using modern technologies. Efforts of the university in the implementation of the global mission - the creation of an international research center bringing together scientists and students from all over the world were specified and noted as well, where they are annually invited by foreign higher education institutions and organizations to the CIS countries, Europe, North and South America, the Middle East and Asia.</p>
<b>Mission Statement (in English)</b>	<p>The concept of the research university: - the best students; - the best teaching staff (high academic degree holders rate, international practices, active research activities); - the autonomy of the university; - innovative training programs; - high quality of conducted research and development work; - the high share of commercialization of Intellectual Property; - brand as an intangible asset; - international cooperation in education, research, and entrepreneurship; - entrance to the top 300 best universities (Times Higher Education Ranking); - corporate management; - development of science by major clusters; - two tracks of education: professional and research.</p>
<b>University Accrediting Body</b>	License of the Ministry of Education and Science of the Republic of Kazakhstan, Certificate of institutional accreditation of Independent Agency For Quality Assurance In Education
<b>Region</b>
